01 Problem

For Tenants aged 25–50 in Nigeria, the repeated problem is Finding and securing a suitable home because Unreliable listings, high inspection fees, exorbitant rents, and prolonged rental search periods make the process difficult and costly.

02 Solution

Settla is building A regulated residential rental marketplace that enables legitimate and seamless home renting for Tenants in Abuja aged 25–50 to achieve A seamless, legitimate, and less stressful home-renting experience.

03 UVP

We help Tenants aged 25–50 in Kaduna do Rent a home better by Providing a regulated residential rental marketplace that makes the process seamless and legitimate, unlike Uncontrolled traditional agent-led rental processes.

04 Unfair Advantage

A competitor starting today would need Time, strong legal partnerships, a trusted network of tenants, landlords and agents, and a track record of rental transactions and dispute handling. because Settla doesn't just connect people to properties; we provide accountability throughout the rental process, giving users greater confidence when transacting on the platform.

05

Customer Segments

Primary ICP: Tenant in Nigeria, behavior: Actively searching for residential homes through referrals, agents, social media and other available channels., JTBD: Find and secure a suitable home with less wasted resources like time, money, and energy..
